Atlantic Coast Storm
Sweeps Inland
Across the Carolinas, Leaving Ruin
and Death in Its
Wake.

By Associated Press Dispatch.
ATLANTA, GA., JULY 17. — IT WAS PERSISTENTLY RUMORED TODAY THAT THE LAKE TOXAWAY DAM HAS GIVEN WAY. THERE IS NO WIRE COMMUNICATION AVAILABLE WITH LAKE TOXAWAY.

By Associated Press Dispatch.
ASHEVILLE, N. C., JULY 17.—THE DEATHS FROM THE FLOOD WHICH OVERWHELMED THIS SECTION WERE INCREASED TO NINE TODAY.

REPORTS FROM MADISON COUNTY SAID TWO LIVES WERE LOST THERE.

THE BODY OF MISS CHARLOTTE WALKER, A NURSE, WAS FOUND TODAY AT BILTMORE.

MISS MABEL FOISTER, ANOTHER NURSE, AND MISS LOUISE WALKER ALSO LOST THEIR LIVES AT BILTMORE.

A white and a negro laborer also lost their lives.

Rescue parties sent out by the Southern Railroad Company today found the engineer and two men of the eighteen swept away on a train on a bridge over the Catawba river hanging to treetops 12 miles below the crossing.

It is believed the rest of the men landed on an island. Efforts are being made to rescue them.

Miss Nellie Lipe and Mrs. Leo Mulholland, reported drowned yesterday when the home of their father, J. C. Lipe, at Biltmore, was washed away, were found today tied in the top of a tree, according to reports received here.

The Swannanoa and French Broad Rivers are falling rapidly today.

Scores of large industrial plants around Asheville lie idle today, in the grip of the flood that has followed the rain storm and hurricane that swept in from the Carolina coast and flooded portions of North and South Carolina and adjacent territory of Tennessee and West Virginia.

Five persons are known to have been drowned, fifty are missing and hundreds are homeless, while railroad service virtually is suspended. Estimates of property damage al-

ready have been placed at from \$6,000,000 to \$10,000,000, while the total loss to crops, lumber, miles of highway and railroad bridges and miles of railroad track washed out is expected to grow. The danger is apparently passed.

Immediate cause of the flood around Asheville was the bursting of the dam at Hendersonville, N. C., and that at Kanuga.

Volumes of water swept down the Swannanoa River, engulfing portions of the Vanderbilt estate and the village of Biltmore, laid out 25 years ago by George W. Vanderbilt.

It was at Biltmore that three persons were drowned before they could leave their homes, while two nurses from the Biltmore hospital are said to have been drowned.

Near Charlotte, N. C., eighteen men working on a railroad bridge were carried away when the bridge went down and are either drowned or marooned in treetops.

At Charleston, S. C., approximately 30 men, comprising the crews of six barges, are missing. The barges were torn from tugs during the hurricane.

ALLIES CRUISERS WAIT FOR SUB.

There Will Be No
Patrol By American
Ships to See
That 3-Mile Limit
Is Observed.

By Associated Press Dispatch.
Washington, July 17.—There will be no patrol of American warships off the Virginia coast to see that allied cruisers awaiting the reappearance of the German merchant submarine Deutschland stay outside of the three mile limit.

Secretary Daniels said today that the United States assumed that its territorial waters would not be violated by the allied men-of-war, and had no fear that the underwater merchantman would be attacked before it reached the high sea.

So far as can be learned, the Washington Government has not been notified of the Deutschland's probable sailing date.

It is believed she will drop down from Baltimore to some cove in Chesapeake Bay, and from there skip to sea on the first favorable date.

The Deutschland is now being loaded.

ASK SLEEPERS FOR THE GUARDS

By Associated Press Dispatch.
Columbus, O., July 17.—Governor Willis today sent Secretary of War Baker a telegram urging the use of tourist sleepers for the transportation of Ohio troops to the border.

Senators Harding and Pomerene were asked by Governor Willis to make the same request.

In the telegram Governor Willis declared the day coaches assembled here for troop transportation were unsatisfactory.

He said that troops transported in them would arrive at the border in bad condition.

"ZEPPELIN WILL FOLLOW DEUTSCHLAND ACROSS SEA," SAYS SUBMARINE'S MASTER

Part of Crew of Recently Built Big Zeppelin.

Baltimore officials who visited the transatlantic merchant submarine

Deutschland quoted Captain Koenig as saying that Zeppelin airship freighters are being built in Germany for transatlantic service. "To

you," Captain Koenig was quoted as saying, "the trip of the Deutschland is a great achievement. You mustn't be too enthusiastic over it, for a bigger surprise is coming. A great Zeppelin airship—or may be I should say airships—is being built in Germany. In the not distant future one or more of them will sail through the air to the United States. Just as sure as the Deutschland came to America, so will the Zeppelin come." Ambassador von Bernstorff visited the Deutschland at Baltimore, and his visit was the occasion of a gala day for those interested in the submarine enterprise and for Germans in Baltimore generally. He was accompanied by Hugo Schmidt, New York agent of the Deutsche bank of Berlin, and Dr. Albert, the American financial representative of the German government. The three men were met by the German consul in Baltimore, Carl A. Luderitz. The ambassador was in a jovial mood all during the trip about Baltimore harbor.

SMITH'S SALE OPENS TOMORROW, 8:30 A.M.

AND CONTINUES THROUGHOUT JULY

PRINCE MAY WED ITALIAN

Rome, July 17.—Unconfirmed reports that Prince Edward Albert of Wales, heir apparent to the British throne, seeks the hand of Princess Yolanda, the eldest daughter of King Victor Emmanuel of Italy have excited widespread discussion here. The rumor is a surprise to Italians generally, for it had been supposed that the British prince would marry one of the daughters of Emperor Nicholas of Russia, but there are a number of incidents that have led the Italian people to believe that Prince Edward will marry the Princess Yolanda.

It is now stated that the reason of the visit of the Duke of Connaught to the Italian King in May was to present the formal request of the King and Queen of England for the hand of the Princess Yolanda. The Princess is only fifteen years old, and the Prince is only twenty-two. She received an English education from babyhood under the tutelage of an English governess, Miss Brown, and those who know her intimately have spoken of her as one of the best marriageable prospects in European royal families. She is said to be an extremely sensible and practical girl, having been brought up in a family that is peculiarly domestic, and being the oldest girl in the family, her royal intimates say she has been regarded as the "bos" of the household. She has always acted as the protectress of her younger sisters and her brother, Prince Humbert. Sometimes she has extended this role even to her mother, the Queen. The latter, on one occasion recently, when speaking to the American wife of an Italian journalist, said "I rarely attempt to speak English because Yolanda insists on correcting my mistakes."

The Princess strongly resembles her mother, having dark hair and eyes, an olive complexion, and the slow smile not unlike the famous one in the Mona Lisa paintings. She has been given more of the modern outdoor education than many of the Italian girls who have followed the English and American customs. She plays tennis well, rides, swims and is an excellent pistol and rifle shot. Since the war began she has been the constant companion and aid of her mother in the work among the poor families of soldiers and in the hospitals, particularly the latter.

The Princess is a Catholic, and the English law does not allow of the occupancy of the British throne by a Catholic, but among those who wish to see the marriage carried out it is recalled that in recent years certain princesses have changed their religion in order to become queens. The Queen of Spain became a Catholic on her marriage while the Queen of Greece adopted the religion of the country for the same reason.

marriage services were re-enacted at the golden wedding festivities. The other two couples to similarly celebrate are Mr. and Mrs. Fred Shepperd and Mr. and Mrs. Isaac Taft.

FIND MEANEST MAN

By Associated Press Dispatch.
Sandusky, O., July 17.—Ohio Soldier's and Sailors' Home officials say they have found the "meanest man." "The meanest man" they say, was found in the act of following robbins over the grounds, three miles east of this city. Whenever one of the birds got a choice worm well out of the earth he would frighten it away and seize the morsel upon which it intended to feed. After he had robbed numerous robbins, the "meanest man" took his plunder, stowed it away in a can and went fishing.

UNION SERVICES UNDER BIG TENT

Several hundred persons assembled under the huge Chautauqua tent on the central grounds, Sunday evening, for the union services and the illustrated lecture by Dr. J. Lewis Smith, of Pasadena, California.

The song service prior to the lecture was a thoroughly enjoyable feature, with a union choir, and with beautiful solos by Miss Jean Hollingsworth and Mr. Syster. Also an anthem by the Presbyterian choir.

The illustrated lecture was very interesting and splendidly presented by Dr. Smith.

The big tent offered an ideal place for the meeting, the side canvas being removed so that free circulation of air was possible.

The War Last Week

The British forces in the west have made marked progress during the past week in their offensive campaign against the Germans, driving the forces of the Kaiser from their second line of defenses and now, with the same calm deliberation and cold confidence, are attacking the third line fortifications.

The British have taken their time in making preparations to assume the aggressive and they are taking their time, calculating correctly the strength and resourcefulness of their adversaries, in the advance movement.

The French, fighting with that brilliance and valor which has characterized the troops of the republic during the whole war, have made marked advances and at the same time have held Verdun, that angle extending out into the German lines, impregnable to the most violent attacks.

The Russians continue to advance—the most remarkable campaign of all in many respects—toward the eastern German frontier and against the Turks in Armenia.

All in all the result of the week's campaigns have been decidedly adverse to the Central powers.

While the advantage gained on the one hand and the loss suffered on the other is substantial, yet it cannot be said that it is such as warrants the conclusion that the Central powers are nearing the end of their struggle.

There is, however, some ground for the assertion that the Teutonic forces are facing a shortage of available fighting men, munitions and food.

The captures made in the several advances in the west in men and war materials, while large, do not amount to any vital reduction of the fighting forces.

"Straws Show"

As indicating how man's necessities have made a commodity of many substances, only a few years ago considered worthless, the demand for straw is in point.

Not so many years ago straw on the farm was regarded as nothing more nor less than a real nuisance—bulky, room-occupying waste matter—and the aim was simply and solely to get rid of it. Almost every evening in the late summer and fall the sky would be reddened by some straw stack fire.

Later on, with the passing of the thicket and the timber a few of the straw stacks were utilized through the winter in the feed lots as wind breaks and temporary sheds for the protection of the cattle, only to disappear in the early spring, in flame and smoke after the torch was applied.

In these days there is no straw burned—comparatively speaking. Straw has passed through the "by product" period until now it has a real market value and is considered by the thrifty farmer one of the products of the farm. And it is too.

The coming of the straw board mills and the box factories created a limited demand which has grown now, with the necessity for something to relieve the paper famine, and made of straw a real product of the farm the value of which the tiller of the soil may now justly consider as a part of the reward for his labor.

Agents of paper and pulp mills and box factories are now traveling about the country trying to buy up the straw.

The old time complaint that the wheat, rye and oats crop is not so good as it looks because it is too much straw and too little grain is no longer forceful. Time was when the truthful recounting of that condition meant almost total loss, but it is not true now.

"Straws tell which way the wind blows" now more than ever before. Conditions have compelled us to use many things which in the old days of prodigal plenty were considered useless and straw is only one.

Cleaning Our Streets

That the city officials are taking definite and decisive action looking to the securing of a flusher for the newly constructed streets is a welcome bit of news to almost everyone who resides within the limits of Washington.

Our new streets are in a sorry condition so far as cleanliness is concerned—an abomination to those who live along the line of the streets and an annoyance to all those who travel over them.

The street and road traffic is increasing at a tremendous rate in prosperous Fayette county and in each one of our neighbor counties. Not only should the amount of vehicular travel of half a dozen years ago be multiplied many times in order to correctly gauge the amount of the present day travel but we should also be mindful of the fact that, owing to many "bad" streets and many other torn up streets in process of improvement the increased travel has been concentrated on the newly paved streets.

If the streets are to be cleaned by the public authorities it is high time they were getting at the work. If the authorities purpose to leave that work to property owners to perform by private contract, the announcement should be made so that needed work could be contracted for before homes are ruined—to say nothing of dispositions and wearing apparel—and while some of the driving season remains.

Poetry For Today

PEOPLE LIKED HIM.

People liked him, not because
He was rich or known to fame,
He had never won applause
As a star in any game.
His was not a brilliant style,
His was not a forceful way.
But he had a gentle smile
And a kindly word to say.

Never arrogant or proud,
On he went with manner mild,
Never quarrelsome or loud,
Just as simple as a child.
Honest, patient, brave and true
Thus he lived from day to day,
Doing what he found to do
In a cheerful sort of way.

Wasn't one to boast of gold
Or belittle it with sneers,
Didn't change from hot to cold,
Kept his friends throughout the years.
Sort of man you like to meet
Any time or any place.
There was always something sweet
And refreshing in his face.

Sort of man you'd like to be,
Balanced well and truly square;
Patient in adversity,
Generous when his skies were fair
Never lied to friend or foe,
Never rash in word or deed,
Quick to come and slow to go
In a neighbor's time of need.

Never rose to wealth or fame,
Simply lived, and simply died,
But the passing of his name
Left a sorrow far and wide.
Not for glory he'd attained,
Nor for what he had of pelf
Were the friends that he had gained
But for what he was himself.

Grass Grows In Tree.

Wetmore, Kan.—In the E. W. Thorn-burrow yard in Wetmore is a large bunch of blue grass growing in the fork of an elm tree ten feet from the ground. Every fall the residents of Wetmore, who are watching this curiosity, expect the grass to be winter killed, but every spring it shows up green and strong and matures seed. The grass has been growing in the tree for three years.

CHICAGO PAYS HIGH

Mayor Gets \$18,000 a Year and Seventy Aldermen \$3,000 Each.

NEW YORK IS NEXT IN LINE.

Gotham Allows Its Chief Executive \$15,000, Philadelphia \$12,000, Boston, St. Louis, Newark, N. J.; Cincinnati, Cleveland and Pittsburgh \$10,000, Indianapolis and Seattle \$7,500.

Washington—Chicago has the highest priced mayor in the country. He gets \$18,000 a year and serves four years. New York comes next, with a \$15,000 mayor, whose term also lasts four years. Philadelphia, third in the list, gives its mayor \$12,000 a year for four years. Boston, St. Louis, Newark, N. J.; Cincinnati, Cleveland and Pittsburgh pay their mayors \$10,000 annually, the term being four years in Boston, Pittsburgh and St. Louis, and two years in Cincinnati, Cleveland and Newark.

Indianapolis and Seattle pay their mayors \$7,500 a year; San Francisco, Baltimore and Minneapolis \$6,000 each; East St. Louis, Louisville, New Bedford, Detroit, Kansas City, Buffalo, Mount Vernon, Rochester, Columbus, Scranton, Providence, San Antonio, Tex., and Richmond pay \$5,000 each.

The aldermen, who share with the mayor and certain other officials the responsibility of government in American cities, cost the taxpayers varying sums. Chicago has seventy aldermen, at \$3,000 each; Boston, nine, at \$1,500 each; St. Louis, twenty-nine, at \$1,800 each; Newark, thirty-two, at \$500 each; New York, seventy-three, at \$2,000 each; Cincinnati, thirty-two, at \$1,150 apiece; Cleveland, twenty-six, at \$1,200 each; Philadelphia, forty-eight select councilmen and eighty-three common councilmen, all serving without salary; Pittsburgh, nine aldermen, at \$6,500 each; Indianapolis, nine, at \$600 apiece, and Seattle, nine, at \$3,000 apiece.

The only cities that have an upper and a lower house of aldermen or councilmen are Hartford, Conn.; New Britain, Conn.; Atlanta, Louisville, Portland, Me.; Baltimore (thirty-three in all, at \$1,000 each); Brockton, Mass.; Cambridge, Mass.; Everett, Mass.; Malden, Mass.; Fitchburg, Mass.; New Bedford, Mass.; Pittsfield, Mass.; Springfield, Mass.; Worcester, Mass.; Kansas City, Mo.; Manchester, N. H.; Buffalo (thirty-six in all, at \$1,000 each); Lancaster, Pa.; Philadelphia, Pawtucket, R. I.; Providence, R. I.; Woonsocket, R. I.; Lynchburg, Va.; Norfolk, Va.; Portsmouth, Va.; Richmond, Va., and Roanoke, Va.

The commission form of government, which takes the place of mayors and aldermen, involves a smaller salary outlay. In Washington, D. C., the three commissioners get a total of \$15,000; in Denver, \$25,000; in San Diego, \$12,000; in Topeka, \$9,000; in New Orleans, \$30,000; in Salem, Mass., \$10,000; in St. Paul, \$31,500; in Lincoln, Neb., \$10,000; in Atlantic City, \$15,000; in Bayonne, N. J., \$10,000; in Hoboken, \$10,000; in Jersey City, \$25,000; in Trenton, \$15,000, and in Harrisburg, \$13,000.

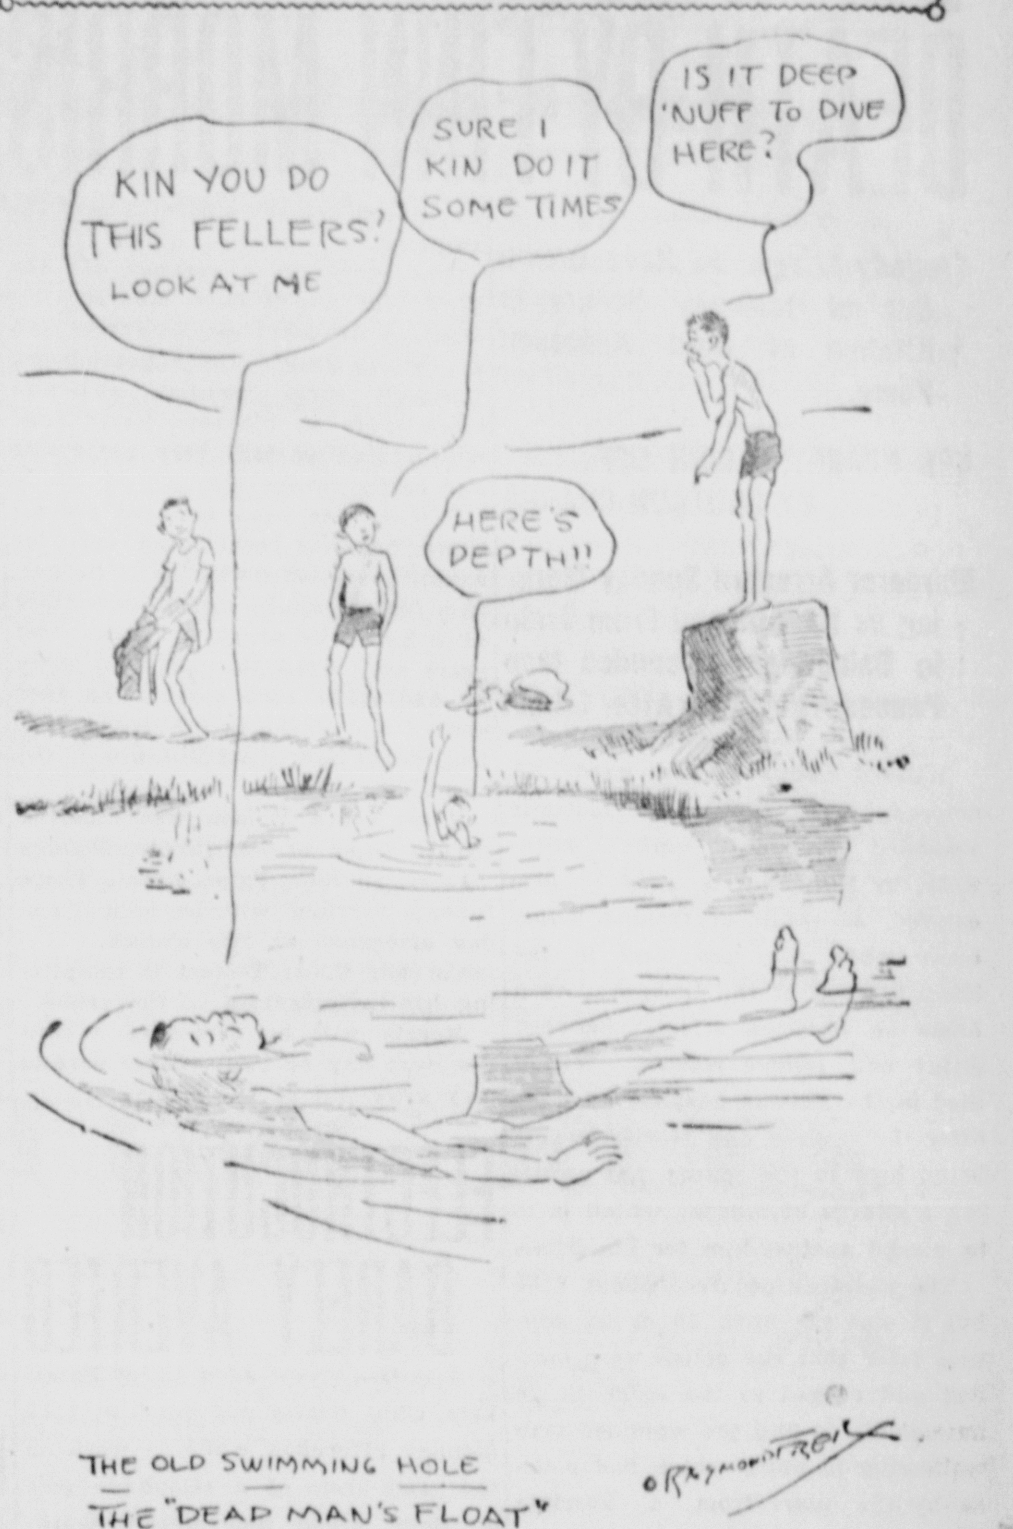

In some of the commission governed cities a mayor is elected as such, while in others he is chosen by the commission. Sometimes he gets an extra allowance as chairman of the commission, but this rarely exceeds \$500, and is included in most of the above totals. While most cities employ assessors to fix the valuation of property for the purposes of taxation, those of some states have no assessors, but report to the county the amount required to be raised for city purposes.

BOX WILSON IS SHOT TO DEATH BY FINN MORRIS

Tragedy Alleged to Have Grown Out of Jealousy Occurs in Kitchen of Dora Anderson Home.

LEG NEARLY BLOWN OFF BY SHOTGUN CHARGE

Murderer Arrested Sunday Morning as He Stepped From Train in Bainbridge—Wounded Man Passes Away Soon After Crime.

Willard (Box) Wilson, aged 32, colored, was shot and mortally wounded Saturday night about 8:35, by Finn Morris, aged 73, also colored, as result of trouble which arose while the men were in the little kitchen of the Dora Anderson home on Bereman street, between Paint and Temple streets. Wilson died in the Fayette hospital an hour after the tragedy and Morris is now being held in the county jail awaiting a charge of murder which is to be placed against him for his crime.

The shooting occurred about 8:35 but it was not until 20 or 25 minutes later that the police were notified and rushed to the scene in an automobile to find the wounded man wallowing in blood which had poured by the quart from a horrible wound in the left leg, close to the hip.

Dr. Brock had been summoned and reached the scene about the time the police arrived, and a few minutes later the Kiever Ambulance was on the scene and after preliminary attention the man was placed in the ambulance and was soon in the Fayette Hospital, where death occurred about 30 minutes later, and was due chiefly to the great loss of blood resulting before a physician was summoned.

Morris had used a shot gun and the charge at close range had taken effect in the front portion of the left leg, close to the groin, shattering the leg in a most shocking manner and leaving a gaping wound eight inches long. The charge severed the large blood vessels of the leg, shattered the bone and left him so that amputation would have been necessary had the man survived the loss of blood.

The little kitchen in which the shooting occurred resembled a shambles, the man having lost more than a gallon of blood when the authorities arrived and although very weak, was still conscious and informed the police that Finn Morris had done the shooting. The wads from the shot gun had been carried into the wound. Death occurred some 20 minutes after he had been placed upon the operating table, and came when the man's aged parents, horror-stricken and heart-broken, had been summoned to his side.

When found the man was literally covered with blood from head to foot, and nearly every thread of his clothing was saturated with blood.

As soon as the shooting occurred Morris dropped the gun and fled, and succeeded in eluding the police while in this city, but Chief Moore and Mayor Oster had thrown out a net in which he became entangled when he stepped from a D. T. & I. freight train in Bainbridge early Sunday morning, and was promptly arrested by the Marshal and held until Chief Moore and Mayor Oster arrived and brought him back to this city. He admitted the shooting. Morris had climbed aboard the train in this city. That he probably was headed toward Bainbridge was learned by the fact that he has relatives there and is a frequent visitor of that oasis.

As usual in such cases the reports of the crime vary, but from information available it seems that both men had been frequenters of the Anderson home, and that they had had trouble before. Wilson seems to have been at the Anderson home and when Morris arrived a quarrel resulted, and Morris seized a shot gun belonging to the Andersons, and Wilson is alleged to have seized a poker. In an instant Morris had fired point blank at Wilson. The Anderson woman, who is well known in police circles, is said to

have been present and witnessed the shooting.

The slayer is a veteran of the Civil War and a farm laborer. He is noted for his frequent sprees and at such times was quarrelsome. Through some peculiar affliction large spots on his skin has turned white, making him very noticeable and easily recognized.

Wilson has been arrested several times, once for bootlegging, once for running an auto without a license, and for an affair which took place at a house he occupied some two years ago. Until the past two years he had spent each summer as chef aboard one of the lake steamers. He had been under surveillance for sometime.

After death Wilson was removed to the home of his father, Stanley Wilson, on East Paint street, where funeral services will be held Tuesday afternoon at two o'clock.

Coroner C. A. Teeters is completing his investigation of the crime. Morris will be arraigned within the next day or two. Other arrests may grow out of the crime.

ELECTROCUTION BARELY AVERTED

Ross O. Gorey, aged 25, of Pataskala, Ohio, nearly met death at 2:15 Monday afternoon while at work on the cross-arms of a telephone pole on Paint street immediately southwest of the old freight station when a telephone wire he was handling fell across a 3200 volt electric wire. He escaped with horrible burns on his left hand and other painful burns on the right hand and right side.

When the current struck him he fought to free himself and fell backward, but the life belt saved him. Other members of the A. T. & T. Company rushed to his aid and used a rope to lower him to the ground.

Dr. Howell had been summoned and Chas. B. Johnson, who saw the near-tragedy, assisted the man in his automobile and rushed him to the Fayette Hospital, where he is resting easy. He will be out in a day or two.

SCARE GROWS OVER GROUNDLESS RUMOR

Sunday evening the information that a case of infantile paralysis had been brought to this city from New York, spread rapidly about the city, but investigation disclosed that the parties who were supposed to have arrived were still in New York state, and that no disease existed in their midst.

The report started when a member of the Health Board, hearing a rumor that the New York parties were visiting in the city, started a little investigation which disclosed that they were not in the city.

Furthermore it is announced by the Board of Health that no cases or suspected case of the disease exist in Washington.

CAVALRY COMPANY ORGANIZING HERE

Renick Allen has been busy the past ten days organizing a private company of cavalry, and so far has upward of 30 enlistments of young men near his own age, and expects to further increase the number within the next few days.

The company, it is understood, will not be associated with the United States Government at the present time, but will get in readiness so that if a call comes later on and three-fourths of the members vote to enlist for Federal service, all will enlist.

Within the next few days a charter membership will close.

Mrs. Charles Passmore, of St. Louis, Mo., congressional state chairman, who is visiting here, will be one of the notable suffrage women in attendance.

ALLEGED 'LEGGER AGAIN IN TOILS

Following a hearing of the assault charges faced by Ed Gray and Dan Ryan, of Bloomington, Saturday morning, Mayor Oster sent out after Newton Underwood, who was brought in by Chief Moore to answer bootlegging charges.

Witnesses in the Gray and Ryan cases testified they had purchased liquor from Underwood. His hearing takes place Tuesday morning at nine o'clock. Ryan was fined \$1 and the costs.

Through the efforts of Chief of Police D. L. Moore, two horses, which had disappeared while some parties were camping west of this city July 4th, have been located and returned to the owners at Springfield.

The animals were located in the hands of constable at Era, the man having picked up the animals and was holding them until their ownership could be established.

PUPIT FILLED VERY ACCEPTABLY

The pulpit of the First Presbyterian church was filled Sunday morning by the Rev. Frederic Dapp, of Ludlow, Ky., a young minister of most pleasing personality.

Rev. Dapp is a fluent and earnest speaker and his sermon was listened to with absorbed interest by an unusually good audience for the hot day.

Miss Ada Woodward contributed a beautiful solo to the service.

BISHOP REESE CONFIRMS CLASS

The Sunday morning service of St. Andrews Episcopal Mission was of marked interest and great impressiveness.

A class was confirmed and Bishop Theodore Irving Reese, of Columbus delivered a strong and eloquent sermon.

There was special music, the feature of which was Miss Jessie Leavelle's lovely vocal solo.

COUNCIL TONIGHT PRESSING BUSINESS

The city council will meet in adjourned session tonight at 7:30 o'clock, and among other business to come up for action will be the bids for street flushing—a thing for which the citizens on paved streets are becoming very impatient.

The annual budget and semi-annual appropriation ordinances are expected to receive attention tonight.

PASSENGER HAS NARROW ESCAPE

A man who attempted to board the west bound C. H. & D. excursion train Sunday evening, nearly met death under the trucks of the train when his foot slipped and he fell between the steps. By grasping the hand rail and holding on until another passenger grasped him by the arms and pulled him aboard. The train was stopped immediately after the timely rescue.

MANY DRUNKS ON STREETS SUNDAY

Add Another Room to Your Home

By equipping your porch with AEROLUX Porch Shades you may convert it into a delightful living, dining, sleeping or children's room for the summer months—an outdoor room, cool, comfortable and shaded where you may rest or receive friends and enjoy all the seclusion of an inner room.

By fitting all porch openings with AEROLUX Porch Shades you can entirely shut out the heat and glare of the sun without retarding ventilation. The openings in the fabric are sufficiently wide to permit vision from within but not from without.

The beautiful finish of the fabric and harmonious colors of AEROLUX Shades give an air of distinction to any home

Exclusive Features

All AEROLUX Shades are equipped with this attachment. The No-Whip Cords encircle the shade and without placing strain upon the fabric prevent that disagreeable flapping so common to other porch shades. They are direct attached, adjustable, never in the way and lengthen greatly the life of the shade. AEROLUX Shades are made in any width up to 20 feet and any drop desired.

COST—With ordinary care these shades will give years of service. They are the most efficient, and, durability considered, the most economical shade you can buy—the cheap, flimsy bamboo shade not excepted; \$3.00 to 12.00 will equip the ordinary porch.

After a week's royal good time, David Craig, Tom Rogers, Hiram Hitchcock and Grove Davis, with their chaperone, Maynard Craig, broke camp Monday morning and returned to their homes.

Seven days had been crowded full of outing sports and Mr. Elton Marine, who had extended to the boys the privileges of the creek banks on the Parrett farm, also contributed to their good time during the week.

Messrs. W. B. Rogers and G. H. Hitchcock spent Sunday night with the boys and helped them break

camp. Donald Kyle and William Henry Edwards were also visitors.

TREASURER BUSY

DELAYS TRANSPORTATION

Ruling Issued When Mexican Situation Was Acute Revoked by the New Order—Report That War Department Will Resort to the Draft Officially Denied—Guardsmen Receiving Normal Army Rations.

Washington, July 17.—The war department sent orders to all department commanders to delay transportation to the border of national guard organizations now mobilizing, until they are thoroughly equipped and organized. The effect will be to revoke a ruling issued when the Mexican situation was acute, waiving certain requirements. The order affects about 25,000 men still held in the camps.

The latest information of the department is that about 100,000 national guardsmen now are at the border. With the 50,000 regulars there and 5,000 additional men called from the reserves, officials estimate that there is sufficient force to cope with any present emergency and will make unnecessary the dispatch of more guardsmen until they are completely equipped and organized.

Published reports that use of a general draft was being considered to fill the national guard ranks were denied by the department. The following statement was issued by the official press bureau: "The statement that the war department is contemplating the draft system to recruit the national guard is nonsense. Statements to that effect are purely speculative and have no basis in fact."

Reports that national guard units are being supplied poor and insufficient food are not borne out in preliminary telegraphic reports received from all the department commanders. These accounts uniformly declare that there has been no food shortage among the guardsmen and that all have been supplied normal army rations of good quality. Detailed reports are being forwarded and a formal statement probably will be issued later by the department.

A message from General Funston reported that General Trevino had sent many troops south, with the intention of occupying the Guerrero-San Borja-Santa Rosalia line against any possible northward advance of bandits. The dispatch added that newspapers in Chihuahua were urging the necessity of an active campaign against bandits "to prevent their reaching United States forces and border."

Chicago.—Because it could not be taught to say "Votes for women," a parrot which had been recently taken to the headquarters of the woman suffragists is now back in the bird store.

GRADE CROSSING

(By American Press)

Jacksonville, Ill., July 17.—Five persons were killed and one internally injured when the automobile in which they were riding was struck by a westbound Wabash passenger train, one mile west of this city. The dead are: Mrs. Mary McSherry and Miss Ellen Groves, Jacksonville; Miss Margaret Allen, Allen, Bernard and Mrs. Adolph Bernard, Springfield, Ill. William Groves, who was driving the car, was internally injured.

The cause of the accident is unknown, as there were no witnesses. The train was making up lost time and was traveling at a high rate of speed, it was said. Members of the party were on their way to church.

This represents the total of twelve items, as follows: Columbus, postoffice site, \$240,000; Findlay, building, \$50,000; Napoleon, building, \$35,000; Circleville, building, \$65,000; Eaton, building, \$35,000; Mt. Chicago, July 17.—Brooklyn and the Cubs fought through sixteen innings to a draw. Though there was little brilliant fielding, the work of both teams was steady and the batters did most of the work. FEAR CHANCE FOR BORDER SERVICE GONE

Federal Inspector to Give Camp Willis the "Once Over."

Columbus, July 17.—Announcement that Colonel George K. Hunter, inspector general of the central department, had been ordered to Columbus to give the mobilization camp a thorough "once over" was enough to disturb some of the officers, who saw that he is apt to be rather severe in his criticism of affairs at the camp.

Others, however, were not perturbed at the news, saying that Colonel Hunter is making a tour of mobilization camps in his department, and that he comes here as a matter of course, and not because reports have been circulated that troops are suffering because of inadequate and inferior supplies.

It is said that he already has visited every state camp under his jurisdiction, except Upper Arlington and that of Michigan.

Some officers look on Colonel Hunter's visit as signifying that federal authorities are determined to obtain first-hand information as to the availability of Ohio guardsmen for immediate service.

Members of the Eighth regiment, convinced that they will not entrain for the border before the middle of the week at the earliest, settled back to camp routine. No orders were received from General Barry of Chicago by Major Mearns, chief mustering officer here, to explain further his brief message which suddenly halted entraining activities of the Eighth regiment Saturday. Colonel Vollrath's only comment on the situation was: "We will be out of here by Wednesday." He said progress in "completely equipping" his men, the war department's prerequisite to leaving for border service, is being made, and that they should be able to move in a day or two.

The impression gained ground among the men at the camp that Ohio troops may not get further south than their present camp grounds and that the war department is breaking the news to them gradually. The boys are chafing considerably under the delay, both in getting equipment and orders to move.

"We all feel," Mr. Colby said, "that the action of the committee presents only their own personal views."

Virginia and the Carolinas Under Water.

FIVE PERSONS DROWNED

Railroad Traffic Impeded and Property and Crops Damaged to the Extent of \$10,000,000—Many Streams Out of Bounds and Hundreds Rendered Homeless by the Rising Waters—Bands of Rescuers at Work.

Atlanta, Ga., July 17.—Floods in North and South Carolina and Virginia have caused the death of at least five persons, property and crops have been damaged to the extent of \$10,000,000 and hundreds of persons are homeless.

Following the hurricane that struck the south Atlantic coast Thursday, unprecedented rains have fallen, driving rivers and smaller streams from their banks and imperiling many lives.

The French Broad river has broken from its course near Asheville, flooding factories and homes in the lower part of the city. At Biltmore three persons, Captain J. C. Lipe, Miss Nellie Lipe and Mrs. Leo Mulcahill, were drowned when the Lipe house was flooded. Two persons were drowned at Asheville while trying to get food to flood refugees in the second story of the Glen Rock hotel. Many are marooned in their residences along the river and rescue parties for hours have fought their way against the rushing current in an effort to reach them. Swift streams are flowing down some of the streets of lower Asheville.

Throughout western North Carolina the situation is reported serious. Two dams at Hendersonville collapsed, releasing hundreds of tons of water, and fears are felt for the big dam at Lake Toxaway.

The Southern railway bridge over the Catawba river at Belmont, N. C., has been washed away, carrying ten or twelve workmen into the river. Whether they were drowned has not been learned. The Seaboard Air Line bridge over the Catawba river at Mount Holly, N. C., has collapsed, as has that over the Catawba, on the Salisbury-Asheville line. Many highway bridges also have been swept away.

Practically all railway traffic in southwest Virginia and eastern West Virginia was tied up.

At Mondo, N. C., below Catawba, the West Mondo cotton-mill of 5,000

CASTRO BARRED OUT OF U. S.

Special Inquiry Board Orders Former Ruler Deported.

New York, July 17.—General Cipriano Castro, former president of Venezuela, and his wife, who arrived here from Port of Spain, Trinidad, on the steamship Vanban, were ordered deported from the United States by a special board of inquiry at the Ellis Island immigration station.

The hearing, which lasted fifty minutes, was private. The charge against General Castro, however, was said to involve moral turpitude. The order as applied to Mrs. Castro was characterized as technical.

General and Mrs. Castro, who had been permitted to spend the night on board the Vanban, now are detained at Ellis Island.

After similar action was taken against General Castro on his former visit to this country three years ago, and after an appeal to the department of labor was denied, he sued out a writ of habeas corpus in a federal court. The writ being granted, the former president of Venezuela was permitted to land, after he furnished bond, pending an appeal by the government. General Castro voluntarily left the country before the appeal was heard.

Commissioner of Immigration Frederick C. Howe placed his personal quarters at Ellis Island at the disposal of the Castros.

Commenting on the action of the special board of inquiry, General Castro said: "It is so strange, so strange, I do not understand the procedure. I feel that the precedent set up on my last visit here will apply and I will be released."

General Castro said he was out of politics, and suggested that if he had wished to foment trouble in Venezuela it would have been easier for him to do so on the island of Trinidad than in New York. He explained that his physician told him to leave Trinidad, owing to the malaria infection.

RUSSIAN FORCES MOVE ON

Heavy Fighting Renewed In the Region of Lutsk.

ACTIVITY ON THE SOMME

Bombardments Continue On the British Front While the French Forces Rest Up—British Line Withdrawn From Foreaux Wood—Russians Capture Town of Balbut From the Turks—Italians Claim Gains.

London, July 17.—In the eastern theater of hostilities, in the region of Lutsk, heavy fighting has commenced again, with the Russians the aggressors. According to Vienna, the attacks here have been repulsed. Neither the Vienna nor Petrograd official communication touches upon the operations in the Carpathians region, but Petrograd records the capture from the Turks by the Russians of the important town of Balbut, in Turkish Armenia, sixty miles south of the Black sea port of Trebizond.

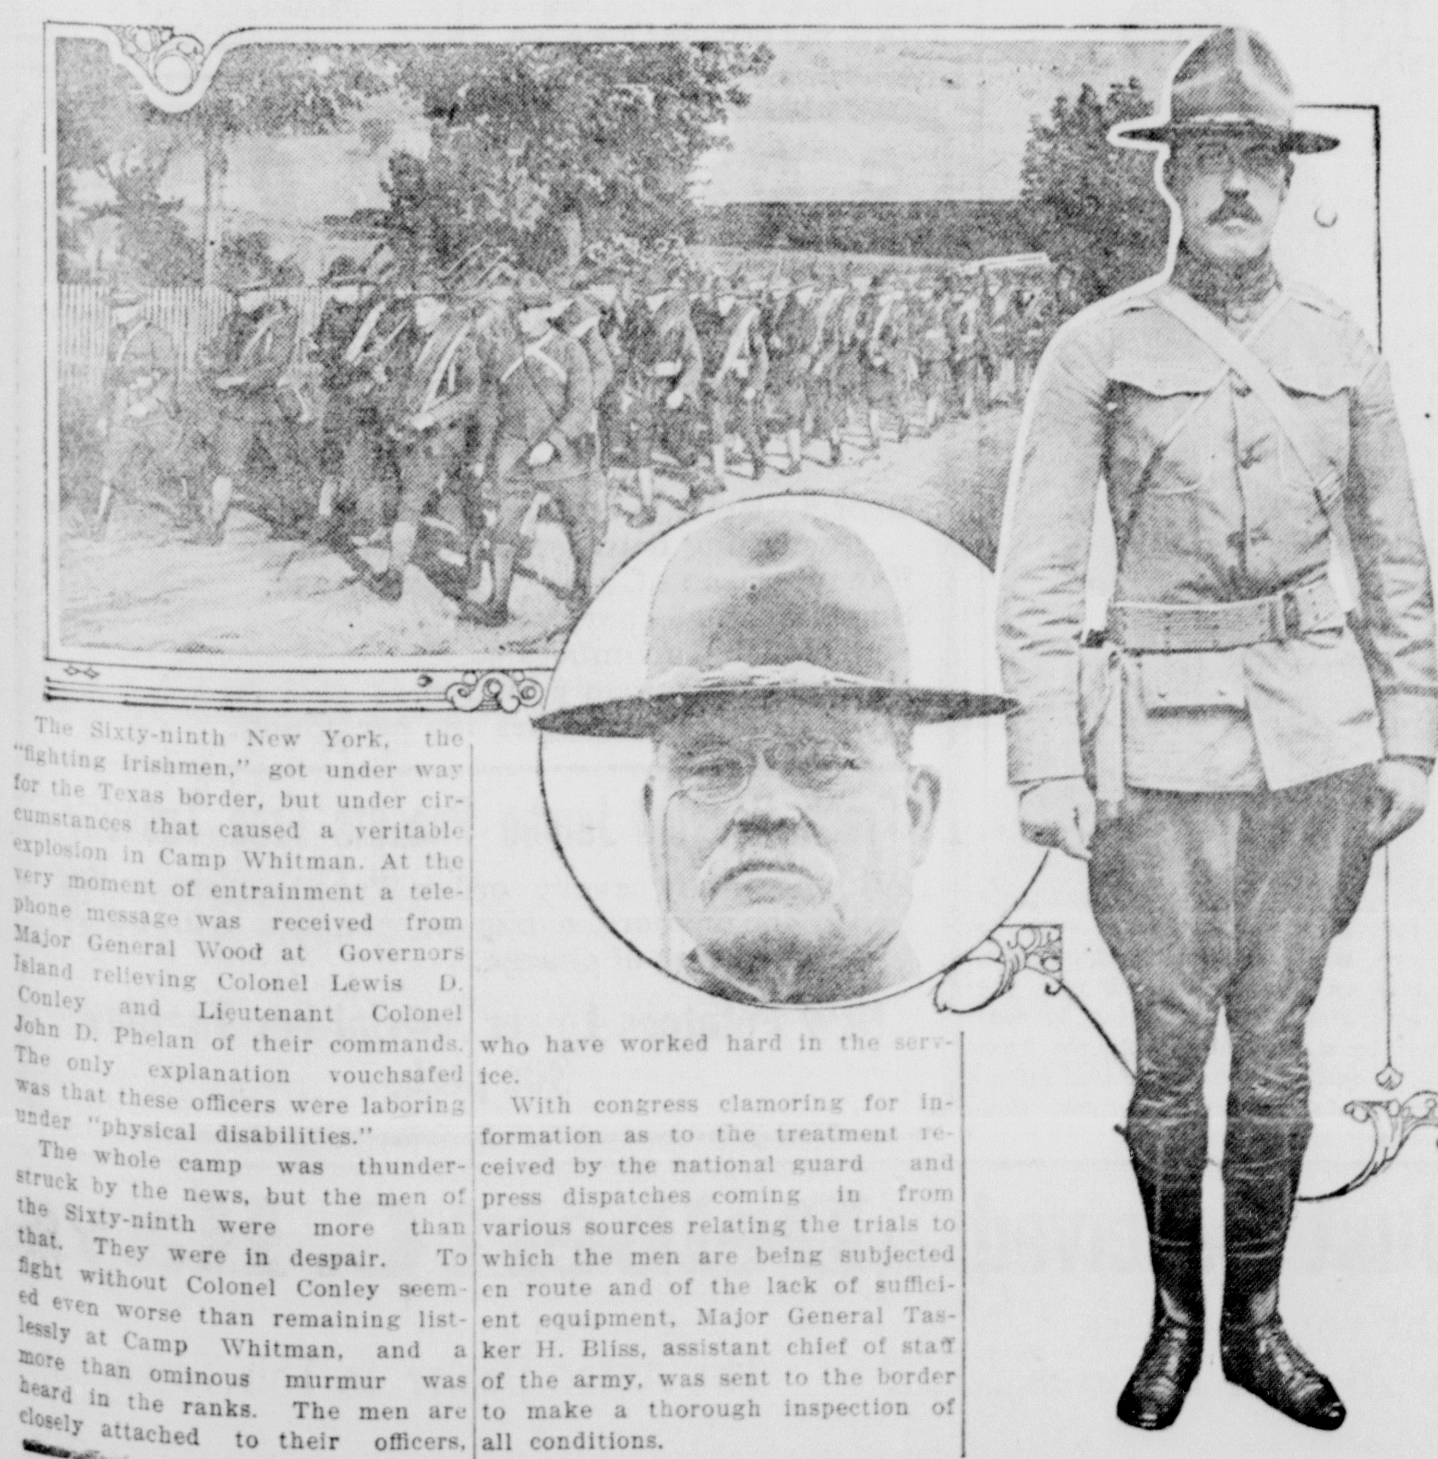

The Italians are still making headway against the Austrians, according to Rome, especially on the Posina line, and have repulsed violent counter attacks with heavy losses to the Austrians.

On the Somme bombardments continue on the British front and comparative calm is noted on the line held by the French. In the region of Verdun the French to the northwest of the fortress have captured German positions, and southwest of Thiaumont, on the east bank of the Meuse, have penetrated the German first line trenches.

To the south of the Somme the Germans in strong attacks, launched under the cover of fog, captured La Maisonnette and the village of Blaches, while farther south they penetrated first line French trenches. From all these places they were driven out later by the French in heavy counter attacks. In the Champagne region there is again great activity by the French troops, who are being aided in their maneuvers by the Russians who recently came to France.

Berlin tells of the repulse of four British attacks in the region of Ovillers and Bazentin-le-Petit, while the London war office admits the withdrawal to the British main line of a force that had been thrown forward to the Foreaux wood and was engaged

NEW YORK'S FAMOUS 69TH LOSES OFFICERS; BLISS SENT TO BORDER

The Sixty-ninth New York, the "Fighting Irishmen," got under way for the Texas border, but under circumstances that caused a veritable explosion in Camp Whitman. At the very moment of entrainment a telephone message was received from Major General Wood at Governors Island relieving Colonel Lewis D. Conley and Lieutenant Colonel John D. Phelan of their commands. The only explanation vouchsafed was that these officers were laboring under "physical disabilities."

The whole camp was thunder-struck by the news, but the men of the Sixty-ninth were more than that. They were in despair. To fight without Colonel Conley seemed even worse than remaining listlessly at Camp Whitman, and a more than ominous murmur was heard in the ranks. The men are closely attached to their officers,

TRY IT OVER

(By American Press)

New Orleans, July 17.—A statement and call to "the patriotic men and women of America," to hold a new national convention of the Progressive party in Chicago Aug. 5 and nominate candidates for president and vice president and continue the party's existence as a distinct political organization, was issued here by John M. Parker, vice presidential nominee of the Progressive convention held in Chicago last June. He urges the Progressives to "eternally bury" the Bull Moose, which he asserts "led his loyal followers into the wilderness," and to adopt in its place the American eagle as the emblem of the party. Mr. Parker does not mention Colonel Roosevelt or any other Progressive leader or any candidate by name. He declares, however, that the Progressives had as supposed leaders "red-blooded Americans, who promised with their 'life blood' to stay with the party to the finish," but that the party had been deserted by a large part of its officers, who could not stand the acid test.

IN THE SERVICE

(By American Press)

Tokyo, July 17.—Rev. W. A. E. Caldwell and his wife, Canadian mission aries, were stabbed to death by a burglar in their summer cottage at Karuzawa. The weapon used was a Japanese short sword. Karuzawa, which is an American missionary summer center, has been greatly excited by the murder. Rev. Mr. Campbell recently volunteered for service with a Canadian contingent in the European war and was about to return home. He was sent out to the far east by the Methodist church in Canada. He had been engaged in evangelistic work in Japan since September, 1913.

WIRE FLASHES

(By American Press)

Death claimed Professor Elie Metchnikoff, the famous bacteriologist of Paris.

Representative Hunter Holmes Moss of the Fourth West Virginia district, died at Atlantic City, N. J., after a long illness.

Dr. Cesare Battisti, former Socialist member of the Austrian parliament from Trent, was put to death at Vienna for treason.

Fifteen persons were injured when an interurban car ran into a Pere Marquette switch engine, at Grandville, fifteen miles west of Grand Rapids, Mich.

Otto D. Carey, forty, a farmer, his wife and two sons, Laughton, six, and Paul, eighteen months, were instantly killed near Butler, Ind., when their automobile was hit by a train.

T. Palmer Miller, member of the 1912 class of Dartmouth college, visiting in Chicago, was shot and killed by James Garrey, a detective sergeant, who mistook him for a burglar.

CONGRESS TO SPEED

(By American Press)

Washington, July 17.—Senate Democrats having resolved on an adjournment of congress by Aug. 20, if possible, work of speeding up the urgent legislative program outlined by the party caucus began today in earnest. Democratic leaders will seek to hold Republicans to their pledge of co-operation and will urge their colleagues to limit debate. The big building program probably will be disposed of in two or three days. Calculations made a few days ago were that its passage would require two or three weeks.

HILLSBORO
LOSES FIRST
TO ATHLETICS

Local Team Puts Over Whirlwind Game on Speedy Visitors and Were Never in Trouble.

The best crowd of the season saw the Washington Athletics put it all over the visitors from Hillsboro yesterday afternoon at the local park and come off with flying colors in the first game of the big series. There never was any thing to it but Washington all the way and the 8 to 1 finish correctly tells the difference in the two teams.

The big crowd was wild with enthusiasm and vociferously expressed their approval of the fast work of the local team.

Reno who has been sojourning in New Holland has signed up with the locals and that he was glad to be back home is demonstrated by the fact that he pitched shutout ball—only five hits off him in the nine frames.

For the locals Noon and Lewis starred at the bat the last named with the bases populated in second cleaned up with a three base hit.

The Hillsboro pitcher forced in a run in the second via the "bean" route.

The locals played well in the field and at the bat completely wiping out the defeat at Hillsboro.

Next Sunday the local team goes to New Holland (account the Chautauqua) and will, if they play the same game they put up yesterday wipe out the defeat which New Holland has charged against them.

NEW CHAPTER
FOR CASEMENT

Sir Roger's Case Goes to Appeals Court on Law Points.

(Associated Press Cable)

London, July 17.—A new chapter opened today in Sir Roger Casement's legal fight against execution on a charge of high treason. Sir Roger's case was taken up in the Court of Appeals.

Alexander Sullivan, of Dublin, counsel for Sir Roger, stated the appeal would involve two questions.

First, whether the matter described in the charge was in truth an offense within the statute sighted.

Second, whether the divination of the offense—adhering to the King's enemies—given at the reading of the trial was an accurate definition or defective, as an instruction to the jury.

Suggested Campaign to Exterminate the Sharks Rejected as Impractical.

By Associated Press Dispatch.

Washington, July 17. — Suggestions that a campaign of extermination against sharks along the Atlantic coast be undertaken by the Coast Guard Service were abandoned today by the Treasury Department officials as impractical.

They report that the only method of protecting bathers was the extension of steel wire netting, already in use at some beaches, since the ocean is literally infested with sharks.

Inbound ships report sharks running in schools and ranging in size from nine to fifteen feet in length.

The coast guard officials will continue to lend assistance in combating the man eating fish, but no dynamite will be used as it would destroy all food fish.

Order, Counter Orders and Surmise Confuse Troop Movement Plans.

By Associated Press Dispatch.

Washington, July 17. — Additional National Guard units will be dispatched to the Mexican border only after they have been organized and thoroughly equipped.

Department commanders were delaying transportation today of all incomplete units, on instructions from the War Department.

It is believed the delay in the movement of the Eighth Regiment, Ohio Guards, after it was partially entrained Saturday, is a result of this action.

UNCOVERED HEIRLOOM.

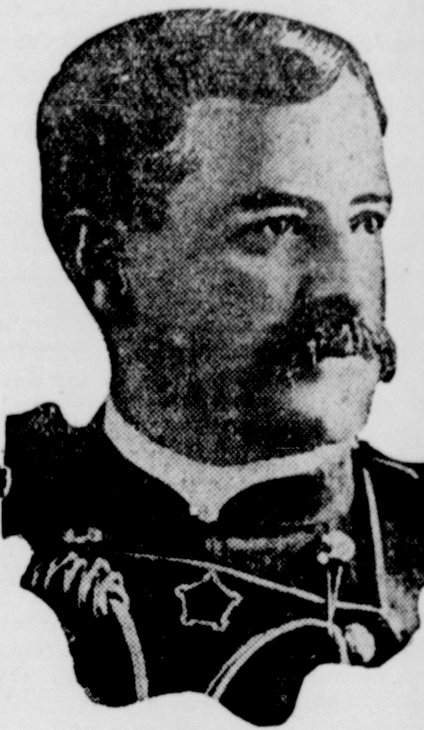

Silver Watch Was Lost and Lay in Ground Six Years.

Dayton, Wash.—An heirloom watch, lost six years ago by George Jones, came to light recently when County Commissioner Lee Lindley turned a furrow in a field he was plowing and brought the relic to the surface.

Jones lost the watch while at the Lindley farm and had never been able to find it, although he had looked carefully many times.

It was in a silver case, which was badly discolored from long contact with the earth, but after Lindley had shaken the dirt from it and wound it it ran as well as the day it was lost.

ATLANTA, GA., JULY 17. — IT WAS PERSISTENTLY RUMORED TODAY THAT THE LAKE TOXAWAY DAM HAS GIVEN WAY.

THERE IS NO WIRE COMMUNICATION AVAILABLE WITH LAKE TOXAWAY.

By Associated Press Dispatch.

ASHEVILLE, N. C., JULY 17.—THE DEATHS FROM THE FLOOD WHICH OVERWHELMED THIS SECTION WERE INCREASED TO NINE TODAY.

REPORTS FROM MADISON COUNTY SAID TWO LIVES WERE LOST THERE.

THE BODY OF MISS CHARLOTTE WALKER, A NURSE, WAS FOUND TODAY AT BILTMORE.

MISS MABEL FOISTER, ANOTHER NURSE, AND MISS LOUISE WALKER ALSO LOST THEIR LIVES AT BILTMORE.

A white and a negro laborer also lost their lives.

Rescue parties sent out by the Southern Railroad Company today found the engineer and two men of the eighteen swept away on a train on a bridge over the Catawba river hanging to treetops 12 miles below the crossing.

It is believed the rest of the men landed on an island. Efforts are being made to rescue them.

Miss Nellie Lipe and Mrs. Leo Mulholland, reported drowned yesterday when the home of their father, J. C. Lipe, at Biltmore, was washed away, were found today tied in the top of a tree, according to reports received here.

The Swannanoa and French Broad Rivers are falling rapidly today.

Scores of large industrial plants around Asheville lie idle today, in the grip of the flood that has followed the rain storm and hurricane that swept in from the Carolina coast and flooded portions of North and South Carolina and adjacent territory of Tennessee and West Virginia.

Five persons are known to have been drowned, fifty are missing and hundreds are homeless, while railroad service virtually is suspended. Estimates of property damage al-

ready have been placed at from \$6,000,000 to \$10,000,000, while the total loss to crops, lumber, miles of highway and railroad bridges and miles of railroad track washed out is expected to grow. The danger is apparently passed.

Immediate cause of the flood around Asheville was the bursting of the dam at Hendersonville, N. C., and that at Kanuga.

Volumes of water swept down the Swannanoa River, engulfing portions of the Vanderbilt estate and the village of Biltmore, laid out 25 years ago by George W. Vanderbilt.

It was at Biltmore that three persons were drowned before they could leave their homes, while two nurses from the Biltmore hospital are said to have been drowned.

Near Charlotte, N. C., eighteen men working on a railroad bridge were carried away when the bridge went down and are either drowned or marooned in treetops.

At Charleston, S. C., approximately 30 men, comprising the crews of six barges, are missing. The barges were torn from tugs during the hurricane.

ALLIES CRUISERS

There Will Be No

That 3-Mile Limit
Is Observed.

By Associated Press Dispatch.

Washington, July 17.—There will be no patrol of American warships off the Virginia coast to see that allied cruisers awaiting the reappearance of the German merchant submarine Deutschland stay outside of the three mile limit.

Secretary Daniels said today that the United States assumed that its territorial waters would not be violated by the allied men-of-war, and had no fear that the underwater merchantman would be attacked before it reached the high sea.

So far as can be learned, the Washington Government has not been notified of the Deutschland's probable sailing date.

It is believed she will drop down from Baltimore to some cove in Chesapeake Bay, and from there skip to sea on the first favorable date.

The Deutschland is now being loaded.

ASK SLEEPERS
FOR THE GUARDS

By Associated Press Dispatch.
Columbus, O., July 17.—Governor Willis today sent Secretary of War Baker a telegram urging the use of tourist sleepers for the transportation of Ohio troops to the border.

Senators Harding and Pomerene were asked by Governor Willis to make the same request.

In the telegram Governor Willis declared the day coaches assembled here for troop transportation were unsatisfactory.

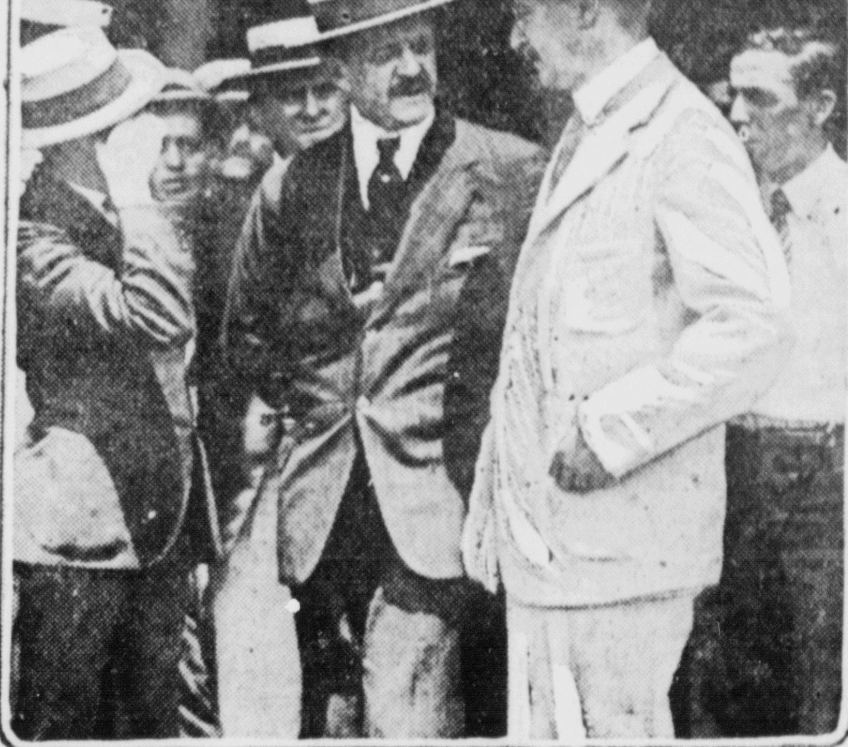

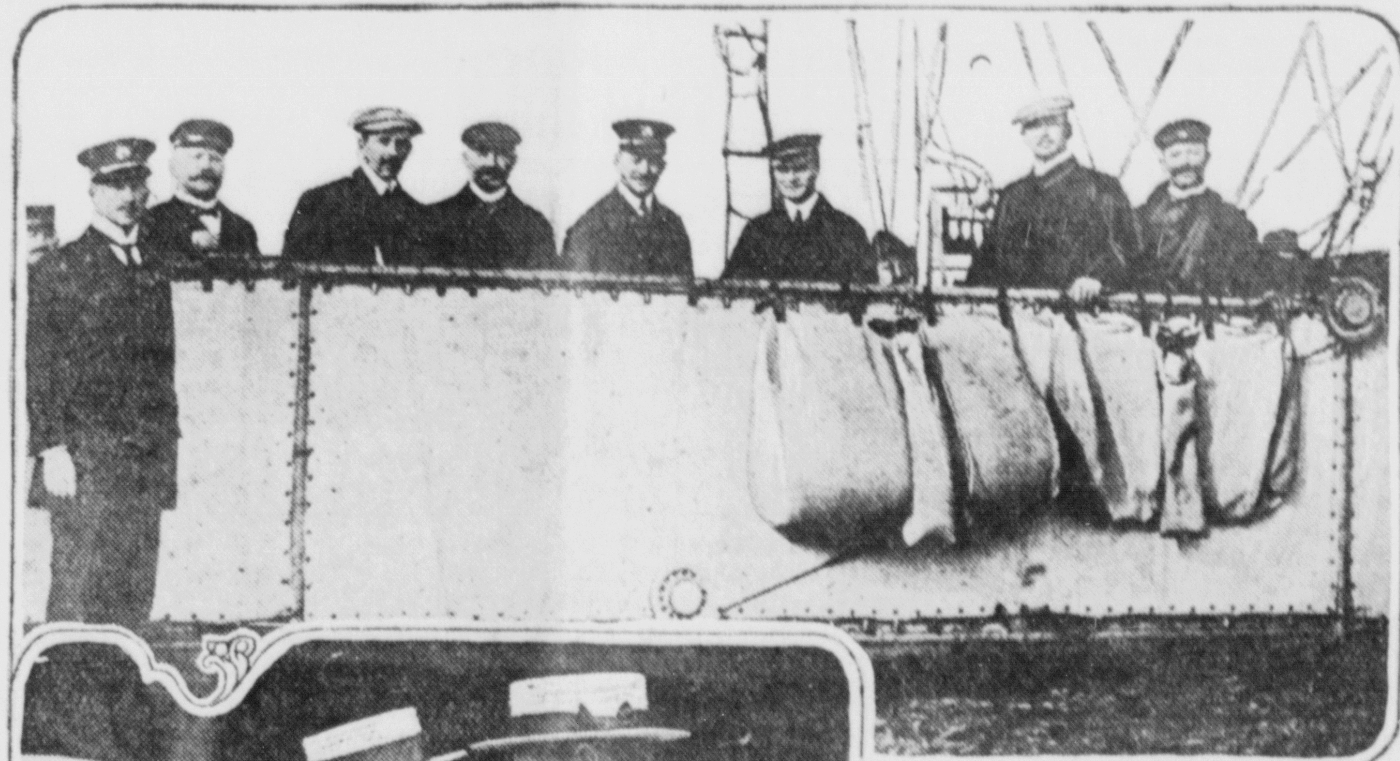

He said that troops transported in them would arrive at the border in bad condition.

"ZEPPELIN WILL FOLLOW DEUTSCHLAND

Part of Crew of Recently Built Big Zeppelin.
Baltimore officials who visited the transatlantic merchant submarine Deutschland quoted Captain Koenig as saying that Zeppelin airship freighters are being built in Germany for transatlantic service. "To

you," Captain Koenig was quoted as saying, "the trip of the Deutschland is a great achievement. You mustn't be too enthusiastic over it, for a bigger surprise is coming. A great Zeppelin airship—or may be I should say airships—is being built in Germany. In the not distant future one or more of them will sail through the air to the United States. Just as sure as the Deutschland came to America, so will the Zeppelin come." Ambassador von Bernstorff visited the Deutschland at Baltimore, and his visit was the occasion of a gala day for those interested in the submarine enterprise and for Germans in Baltimore generally. He was accompanied by Hugo Schmidt, New York agent of the Deutsche bank of Berlin, and Dr. Albert, the American financial representative of the German government. The three men were met by the German consul in Baltimore, Carl A. Luderitz. The ambassador was in a jovial mood all during the trip about Baltimore harbor.

He said he had already inspected twelve state mobilization camps in the Central Department and he would go from here to Michigan. His report on the Ohio camp will be confidential.

Officers today considered it probable that the Eighth Regiment now may not leave for the border until the middle of the week or probably later. Cots and shoes for all the men are said to be lacking.

PRINCE MAY WED ITALIAN

Rome, July 17.—Unconfirmed reports that Prince Edward Albert of Wales, heir apparent to the British throne, seeks the hand of Princess Yolanda, the eldest daughter of King Victor Emmanuel of Italy have excited widespread discussion here. The rumor is a surprise to Italians generally, for it had been supposed that the British prince would marry one of the daughters of Emperor Nicholas of Russia, but there are a number of incidents that have led the Italian people to believe that Prince Edward will marry the Princess Yolanda.

It is now stated that the reason of the visit of the Duke of Connaught to the Italian King in May was to present the formal request of the King and Queen of England for the hand of the Princess Yolanda. The Princess is only fifteen years old, and the Prince is only twenty-two. She received an English education from babyhood under the tutelage of an English governess, Miss Brown, and those who know her intimately have spoken of her as one of the best marriageable prospects in European royal families. She is said to be an extremely sensible and practical girl, having been brought up in a family that is peculiarly domestic, and being the oldest girl in the family, her royal intimates say she has been regarded as the "bos" of the household. She has always acted as the protectress of her younger sisters and her brother, Prince Humbert. Sometimes she has extended this role even to her mother, the Queen. The latter, on one occasion recently, when speaking to the American wife of an Italian journalist, said "I rarely attempt to speak English because Yolanda insists on correcting my mistakes."

The Princess strongly resembles her mother, having dark hair and eyes, an olive complexion, and the slow smile not unlike the famous one in the Mona Lisa paintings. She has been given more of the modern outdoor education than many of the Italian girls who have followed the English and American customs. She plays tennis well, rides, swims and is an excellent pistol and rifle shot. Since the war began she has been the constant companion and aid of her mother in the work among the poor families of soldiers and in the hospitals, particularly the latter.

The Princess is a Catholic, and the English law does not allow of the occupancy of the British throne by a Catholic, but among those who wish to see the marriage carried out it is recalled that in recent years certain princesses have changed their religion in order to become queens. The Queen of Spain became a Catholic on her marriage while the Queen of Greece adopted the religion of the country for the same reason.

The twin sister, Ellen and Nettie Mason, fifty years ago were married to Irving Hubbard and Murray Parsons. For half a century the two couples have never lived more than a few blocks apart. The

marriage services were re-enacted at the golden wedding festivities. The other two couples to similarly celebrate are Mr. and Mrs. Fred Sheppard and Mr. and Mrs. Isaac Taft.

FIND MEANEST MAN

By Associated Press Dispatch.
Sandusky, O., July 17.—Ohio Soldier's and Sailors' Home officials say they have found the "meanest man." "The meanest man" they say, was found in the act of following robbers over the grounds, three miles east of this city. Whenever one of the birds got a choice worm well out of the earth he would frighten it away and seize the morsel upon which it intended to feed. After he had robbed numerous robbers, the "meanest man" took his plunder, stowed it away in a can and went fishing.

UNION SERVICES UNDER BIG TENT

Several hundred persons assembled under the huge Chautauqua tent on the central grounds, Sunday evening, for the union services and the illustrated lecture by Dr. J. Lewis Smith, of Pasadena, California. The song service prior to the lecture was a thoroughly enjoyable feature, with a union choir, and with beautiful solos by Miss Jean Hollingsworth and Mr. Slyter. Also an anthem by the Presbyterian choir.

The illustrated lecture was very interesting and splendidly presented by Dr. Smith. The big tent offered an ideal place for the meeting, the side canvas being removed so that free circulation of air was possible.

May God bless All.

The War Last Week

The British forces in the west have made marked progress during the past week in their offensive campaign against the Germans, driving the forces of the Kaiser from their second line of defenses and now, with the same calm deliberation and cold confidence, are attacking the third line fortifications.

The British have taken their time in making preparations to assume the aggressive and they are taking their time, calculating correctly the strength and resourcefulness of their adversaries, in the advance movement.

The French, fighting with that brilliance and valor which has characterized the troops of the republic during the whole war, have made marked advances and at the same time have held Verdun, that angle extending out into the German lines, impregnable to the most violent attacks.

The Russians continue to advance—the most remarkable campaign of all in many respects—toward the eastern German frontier and against the Turks in Armenia.

All in all the result of the week's campaigns have been decidedly adverse to the Central powers.

While the advantage gained on the one hand and the loss suffered on the other is substantial, yet it cannot be said that it is such as warrants the conclusion that the Central powers are nearing the end of their struggle.

There is, however, some ground for the assertion that the Teutonic forces are facing a shortage of available fighting men, munitions and food.

The captures made in the several advances in the west in men and war materials, while large, do not amount to any vital reduction of the fighting forces.

"Straws Show"

As indicating how man's necessities have made a commodity of many substances, only a few years ago considered worthless, the demand for straw is in point.

Not so many years ago straw on the farm was regarded as nothing more nor less than a real nuisance—bulky, room-occupying waste matter—and the aim was simply and solely to get rid of it. Almost every evening in the late summer and fall the sky would be reddened by some straw stack fire.

Later on, with the passing of the thicket and the timber a few of the straw stacks were utilized through the winter in the feed lots as wind breaks and temporary sheds for the protection of the cattle, only to disappear in the early spring, in flame and smoke after the torch was applied.

In these days there is no straw burned—comparatively speaking. Straw has passed through the "by product" period until now it has a real market value and is considered by the thrifty farmer one of the products of the farm. And it is too.

The coming of the straw board mills and the box factories created a limited demand which has grown now, with the necessity for something to relieve the paper famine, and made of straw a real product of the farm the value of which the tiller of the soil may now justly consider as a part of the reward for his labor.

Agents of paper and pulp mills and box factories are now traveling about the country trying to buy up the straw.

The old time complaint that the wheat, rye and oats crop is not so good as it looks because it is too much straw and too little grain is no longer forceful. Time was when the truthful recounting of that condition meant almost total loss, but it is not true now.

"Straws tell which way the wind blows" now more than ever before. Conditions have compelled us to use many things which in the old days of prodigal plenty were considered useless and straw is only one.

Cleaning Our Streets

That the city officials are taking definite and decisive action looking to the securing of a flusher for the newly constructed streets is a welcome bit of news to almost everyone who resides within the limits of Washington.

Our new streets are in a sorry condition so far as cleanliness is concerned—an abomination to those who live along the line of the streets and an annoyance to all those who travel over them.

The street and road traffic is increasing at a tremendous rate in prosperous Fayette county and in each one of our neighbor counties. Not only should the amount of vehicular travel of half a dozen years ago be multiplied many times in order to correctly gauge the amount of the present day travel but we should also be mindful of the fact that, owing to many "bad" streets and many other torn up streets in process of improvement the increased travel has been concentrated on the newly paved streets.

If the streets are to be cleaned by the public authorities it is high time they were getting at the work. If the authorities purpose to leave that work to property owners to perform by private contract, the announcement should be made so that needed work could be contracted for before homes are ruined—to say nothing of dispositions and wearing apparel—and while some of the driving season remains.

Poetry For Today

PEOPLE LIKED HIM.

People liked him, not because
He was rich or known to fame,
He had never won applause
As a star in any game.
His was not a brilliant style,
His was not a forceful way,
But he had a gentle smile
And a kindly word to say.

Never arrogant or proud,
On he went with manner mild,
Never quarrelsome or loud,
Just as simple as a child,
Honest, patient, brave and true
Thus he lived from day to day,
Doing what he found to do
In a cheerful sort of way.

Wasn't one to boast of gold
Or belittle it with sneers,
Didn't change from hot to cold,
Kept his friends throughout the years.
Sort of man you like to meet
Any time or any place,
There was always something sweet
And refreshing in his face.

Sort of man you'd like to be,
Balanced well and truly square;
Patient in adversity,
Generous when his skies were fair
Never lied to friend or foe,
Never rash in word or deed,
Quick to come and slow to go
In a neighbor's time of need.

Never rose to wealth or fame,
Simply lived, and simply died,
But the passing of his name
Left a sorrow far and wide,
Not for glory he'd attained,
Nor for what he had of self
Were the friends that he had gained
But for what he was himself.

CHICAGO PAYS HIGH

Mayor Gets \$18,000 a Year and Seventy Aldermen \$3,000 Each.

NEW YORK IS NEXT IN LINE.

Gotham Allows Its Chief Executive \$15,000, Philadelphia \$12,000, Boston, St. Louis, Newark, N. J., Cincinnati, Cleveland and Pittsburgh \$10,000, Indianapolis and Seattle \$7,500.

Washington—Chicago has the highest priced mayor in the country. He gets \$18,000 a year and serves four years. New York comes next, with a \$15,000 mayor, whose term also lasts four years. Philadelphia, third in the list, gives its mayor \$12,000 a year for four years. Boston, St. Louis, Newark, N. J., Cincinnati, Cleveland and Pittsburgh pay their mayors \$10,000 annually, the term being four years in Boston, Pittsburgh and St. Louis, and two years in Cincinnati, Cleveland and Newark.

Indianapolis and Seattle pay their mayors \$7,500 a year; San Francisco, Baltimore and Minneapolis \$6,000 each; East St. Louis, Louisville, New Bedford, Detroit, Kansas City, Buffalo, Mount Vernon, Rochester, Columbus, Scranton, Providence, San Antonio, Tex., and Richmond pay \$5,000 each.

The aldermen, who share with the mayor and certain other officials the responsibility of government in American cities, cost the taxpayers varying sums. Chicago has seventy aldermen, at \$3,000 each; Boston, nine, at \$1,500 each; St. Louis, twenty-nine, at \$1,800 each; Newark, thirty-two, at \$500 each; New York, seventy-three, at \$2,000 each; Cincinnati, thirty-two, at \$1,150 apiece; Cleveland, twenty-six, at \$1,200 each; Philadelphia, forty-eight select councilmen and eighty-three common councilmen, all serving without salary; Pittsburgh, nine aldermen, at \$6,500 each; Indianapolis, nine, at \$600 apiece, and Seattle, nine, at \$3,000 apiece.

The only cities that have an upper and a lower house of aldermen or councilmen are Hartford, Conn.; New Britain, Conn.; Atlanta, Louisville, Portland, Me.; Baltimore (thirty-three in all, at \$1,000 each); Rockton, Mass.; Cambridge, Mass.; Everett, Mass.; Malden, Mass.; Fitchburg, Mass.; New Bedford, Mass.; Pittsfield, Mass.; Springfield, Mass.; Worcester, Mass.; Kansas City, Mo.; Manchester, N. H.; Buffalo (thirty-six in all, at \$1,000 each); Lancaster, Pa.; Philadelphia, Payttucket, R. I.; Providence, R. I.; Woonsocket, R. I.; Lynchburg, Va.; Norfolk, Va.; Portsmouth, Va.; Richmond, Va., and Roanoke, Va.

The commission form of government, which takes the place of mayors and aldermen, involves a smaller salary outlay. In Washington, D. C., the three commissioners get a total of \$15,000; in Denver, \$25,000; in San Diego, \$12,000; in Topeka, \$9,000; in New Orleans, \$30,000; in Salem, Mass., \$10,000; in St. Paul, \$31,500; in Lincoln, Neb., \$10,000; in Atlantic City, \$15,000; in Bayonne, N. J., \$10,000; in Hoboken, \$10,000; in Jersey City, \$25,000; in Trenton, \$15,000, and in Harrisburg, \$13,000.

In some of the commission governed cities a mayor is elected as such, while in others he is chosen by the commission. Sometimes he gets an extra allowance as chairman of the commission, but this rarely exceeds \$500, and is included in most of the above totals. While most cities employ assessors to fix the valuation of property for the purposes of taxation, those of some states have no assessors, but report to the county the amount required to be raised for city purposes.

Woman Falls, Dislocates Knee; Falls Again, Limb Gets Set.

New Martinsville, W. Va.—Mrs. Everett Shepherd of Clinton street was recently the victim of two accidents, in which one righted the damage done by the other.

She fell on the sidewalk and dislocated her knee. Her husband was near by and after assisting her to her feet started to carry his wife home.

As he mounted the steps to the porch he, too, slipped and fell. The fall remedied Mrs. Shepherd's dislocated knee, as the limb slipped into place again.

BOX WILSON IS SHOT TO DEATH BY FINN MORRIS

Tragedy Alleged to Have Grown Out of Jealousy Occurs in Kitchen of Dora Anderson Home.

LEG NEARLY BLOWN OFF BY SHOTGUN CHARGE

Murderer Arrested Sunday Morning as He Stepped From Train in Bainbridge—Wounded Man Passes Away Soon After Crime.

Willard (Box) Wilson, aged 32, colored, was shot and mortally wounded Saturday night about 8:35, by Finn Morris, aged 73, also colored, as result of trouble which arose while the men were in the little kitchen of the Dora Anderson home on Bereman street, between Paint and Temple streets. Wilson died in the Fayette hospital an hour after the tragedy and Morris is now being held in the county jail awaiting a charge of murder which is to be placed against him for his crime.

The shooting occurred about 8:35 but it was not until 20 or 25 minutes later that the police were notified and rushed to the scene in an automobile to find the wounded man wallowing in blood which had poured by the quart from a horrible wound in the left leg, close to the hip.

Dr. Brock had been summoned and reached the scene about the time the police arrived, and a few minutes later the Klever Ambulance was on the scene and after preliminary attention the man was placed in the ambulance and was soon in the Fayette Hospital, where death occurred about 30 minutes later, and was due chiefly to the great loss of blood resulting before a physician was summoned.

Morris had used a shot gun and the charge at close range had taken effect in the front portion of the left leg, close to the groin, shattering the leg in a most shocking manner and leaving a gaping wound eight inches long. The charge severed the large blood vessels of the leg, shattered the bone and left limb so that amputation would have been necessary had the man survived the loss of blood.

The little kitchen in which the shooting occurred resembled a shambles, the man having lost more than a gallon of blood when the authorities arrived and although very weak, was still conscious and informed the police that Finn Morris had done the shooting. The waifs from the shot gun had been carried into the wound. Death occurred some 20 minutes after he had been placed upon the operating table, and came when the man's aged parents, horror-stricken and heart-broken, had been summoned to his side.

When found the man was literally covered with blood from head to foot, and nearly every thread of his clothing was saturated with blood.

As soon as the shooting occurred Morris dropped the gun and fled, and succeeded in eluding the police while in this city, but Chief Moore and Mayor Oster had thrown out a net in which he became entangled when he stepped from a D. T. & I. freight train in Bainbridge early Sunday morning, and was promptly arrested by the Marshal and held until Chief Moore and Mayor Oster arrived and brought him back to this city. He admitted the shooting. Morris had climbed aboard the train in this city. That he probably was headed toward Bainbridge was learned by the fact that he has relatives there and is a frequent visitor of that oasis.

As usual in such cases the reports of the crime vary, but from information available it seems that both men had been frequenters of the Anderson home, and that they had had trouble before. Wilson seems to have been at the Anderson home and when Morris arrived a quarrel resulted, and Morris seized a shot gun belonging to the Andersons, and Wilson is alleged to have seized a poker. In an instant Morris had fired point blank at Wilson. The Anderson woman, who is well known in police circles, is said to

have been present and witnessed the shooting.

The slayer is a veteran of the Civil War and a farm laborer. He is noted for his frequent sprees and at such times was quarrelsome. Through some peculiar affliction large spots on his skin has turned white, making him very noticeable and easily recognized.

Wilson has been arrested several times, once for bootlegging, once for running an auto without a license, and for an affair which took place at a house he occupied some two years ago. Until the past two years he had spent each summer as chef aboard one of the lake steamers. He had been under surveillance for sometime.

After death Wilson was removed to the home of his father, Stanley Wilson, on East Paint street, where funeral services will be held Tuesday afternoon at two o'clock.

Coroner C. A. Teeters is completing his investigation of the crime. Morris will be arraigned within the next day or two. Other arrests may grow out of the crime.

ELECTROCUTION BARELY AVERTED

Ross O. Grorey, aged 25, of Pataskala, Ohio, nearly met death at 2:15 Monday afternoon while at work on the cross-arms of a telephone pole on Paint street immediately southwest of the old freight station when a telephone wire he was handling fell across a 3200 volt electric wire. He escaped with horrible burns on his left hand and other painful burns on the right hand and right side.

When the current struck him he fought to free himself and fell backward, but the life belt saved him. Other members of the A. T. & T. Company rushed to his aid and used a rope to lower him to the ground.

Dr. Howell had been summoned and Chas. B. Johnson, who saw the near-tragedy, assisted the man in his automobile and rushed him to the Fayette Hospital, where he is resting easy. He will be out in a day or two.

SCARE GROWS OVER GROUNDLESS RUMOR

Sunday evening the information that a case of infantile paralysis had been brought to this city from New York, spread rapidly about the city, but investigation disclosed that the parties who were supposed to have arrived were still in New York state, and that no disease existed in their midst.

The report started when a member of the Health Board, hearing a rumor that the New York parties were visiting in the city, started a little investigation which disclosed that they were not in the city.

Furthermore it is announced by the Board of Health that no cases or suspected case of the disease exist in Washington.

DELAYS TRANSPORTATION

Ruling Issued When Mexican Situation Was Acute Revoked by the New Order—Report That War Department Will Resort to the Draft Officially Denied—Guardsmen Receiving Normal Army Rations.

Washington, July 17.—The war department sent orders to all department commanders to delay transportation to the border of national guard organizations now mobilizing, until they are thoroughly equipped and organized. The effect will be to revoke a ruling issued when the Mexican situation was acute, waiving certain requirements. The order affects about 25,000 men still held in the camps.

The latest information of the department is that about 100,000 national guardsmen now are at the border. With the 50,000 regulars there and 5,000 additional men called from the reserves, officials estimate that there is sufficient force to cope with any present emergency and will make unnecessary the dispatch of more guardsmen until they are completely equipped and organized.

Published reports that use of a general draft was being considered to fill the national guard ranks were denied by the department. The following statement was issued by the official press bureau: "The statement that the war department is contemplating the draft system to recruit the national guard is nonsense. Statements to that effect are purely speculative and have no basis in fact."

Reports that national guard units are being supplied poor and insufficient food are not borne out in preliminary telegraphic reports received from all the department commanders. These accounts uniformly declare that there has been no food shortage among the guardsmen and that all have been supplied normal army rations of good quality. Detailed reports are being forwarded and a formal statement probably will be issued later by the department.

A message from General Funston reported that General Trevino had sent many troops south, with the intention of occupying the Guerrero-San Borja-Santa Rosalia line against any possible northward advance of bandits. The dispatch added that newspapers in Chihuahua were urging the necessity of an active campaign against bandits "to prevent their reaching United States forces and border."

Chicago.—Because it could not be taught to say "Votes for women," a parrot which had been recently taken to the headquarters of the woman suffragists is now back in the bird store.

The cause of the accident is unknown, as there were no witnesses. The train was making up lost time and was traveling at a high rate of speed, it was said. Members of the party were on their way to church.

FEAR CHANCE FOR BORDER SERVICE GONE

Federal Inspector to Give Camp Willis the "Once Over."

Columbus, July 17.—Announcement that Colonel George K. Hunter, inspector general of the central department, had been ordered to Columbus to give the mobilization camp a thorough "once over" was enough to disturb some of the officers, who saw that he is apt to be rather severe in his criticism of affairs at the camp.

Others, however, were not perturbed at the news, saying that Colonel Hunter is making a tour of mobilization camps in his department, and that he comes here as a matter of course, and not because reports have been circulated that troops are suffering because of inadequate and inferior supplies.

It is said that he already has visited every state camp under his jurisdiction, except Upper Arlington and that of Michigan.

Some officers look on Colonel Hunter's visit as signifying that federal authorities are determined to obtain first-hand information as to the availability of Ohio guardsmen for immediate service.

Members of the Eighth regiment, convinced that they will not entrain for the border before the middle of the week at the earliest, settled back to camp routine. No orders were received from General Barry of Chicago by Major Mearns, chief mustering officer here, to explain further his brief message which suddenly halted entraining activities of the Eighth regiment Saturday. Colonel Vollrath's only comment on the situation was, "We will be out of here by Wednesday." He said progress in "completely equipping" his men, the war department's prerequisite to leaving for border service, is being made, and that they should be able to move in a day or two.

The impression gained ground among the men at the camp that Ohio troops may not get further south than their present camp grounds and that the war department is breaking the news to them gradually. The boys are chafing considerably under the delay, both in getting equipment and orders to move.

FAIL TO INDORSE

Bridgehampton, N. Y., July 17.—The rejection by the New Jersey state Progressive committee of a resolution indorsing the candidacy of Charles E. Hughes was communicated to the nominee by Everett Colby, one of the committeemen who favored the indorsement. "We all feel," Mr. Colby said, "that the action of the committee presents only their own personal views."

—what does that mean?

It means that NEW quality, in a cigarette, that does for your smoking exactly what a drink of cold water does for your thirst!

To satisfy, a cigarette must do far more than just "please" you—it must let you know you've been smoking.

That's what Chesterfields do—they satisfy! And yet they're MILD!

For the first time in the history of cigarettes, here's a cigarette that satisfies and yet is mild! Chesterfields!

Other cigarettes may be mild, but they don't satisfy.

BUT, Chesterfields satisfy—yet they're mild!

This is new enjoyment for a cigarette to give. It is something that no cigarette, except Chesterfields, can give you—regardless of price.

Why?

Because no cigarette maker can copy the Chesterfield blend!

Try Chesterfields—today!

New York, July 17.—President Herrmann of the Cincinnati Baseball club, who arrived here yesterday from Cincinnati, announced that the Herzog-Mathewson deal was as good as closed, and that Mathewson will be the next manager of the Reds. It is quite likely that the Reds will get either McKechnie or Lobert, and possibly Outfielder Roush, along with Fatty, in exchange for Herzog.

The Sixty-ninth New York, the "fighting Irishmen," got under way for the Texas border, but under circumstances that caused a veritable explosion in Camp Whitman. At the very moment of entrainment a telephone message was received from Major General Wood at Governors Island relieving Colonel Lewis D. Conley and Lieutenant Colonel John D. Phelan of their commands. The only explanation vouchsafed was that these officers were laboring under "physical disabilities."

The whole camp was thunderstruck by the news, but the men of the Sixty-ninth were more than that. They were in despair. To fight without Colonel Conley seemed even worse than remaining listlessly at Camp Whitman, and a more than ominous murmur was heard in the ranks. The men are closely attached to their officers.

who have worked hard in the service.

With congress clamoring for information as to the treatment received by the national guard and press dispatches coming in from various sources relating the trials to which the men are being subjected en route and of the lack of sufficient equipment, Major General Tasker H. Bliss, assistant chief of staff of the army, was sent to the border to make a thorough inspection of all conditions.

HILLSBORO LOSES FIRST TO ATHLETICS

Local Team Puts Over Whirlwind
Game on Speedy Visitors and
Were Never in Trouble.

The best crowd of the season saw the Washington Athletics put it all over the visitors from Hillsboro yesterday afternoon at the local park and come off with flying colors in the first game of the big series. There never was any thing to it but Washington all the way and the 8 to 1 finish correctly tells the difference in the two teams.

The big crowd was wild with enthusiasm and vociferously expressed their approval of the fast work of the local team.

Reno who has been sojourning in New Holland has signed up with the locals and that he was glad to be back home is demonstrated by the fact that he pitched shutout ball—only five hits off him in the nine frames.

For the locals Noon and Lewis starred at the bat the last named with the bases populated in second cleaned up with a three base hit.

The Hillsboro pitcher forced in a run in the second via the "bean" route.

The locals played well in the field and at the bat completely wiping out the defeat at Hillsboro.

Next Sunday the local team goes to New Holland (account the Chautauqua) and will, if they play the same game they put up yesterday wipe out the defeat which New Holland has charged against them.

NEW CHAPTER FOR CASEMENT

Sir Roger's Case Goes
to Appeals Court
on Law Points.

(Associated Press Cable)
London, July 17.—A new chapter opened today in Sir Roger Casement's legal fight against execution on a charge of high treason. Sir Roger's case was taken up in the Court of Appeals.

Alexander Sullivan, of Dublin, counsel for Sir Roger, stated the appeal would involve two questions. First, whether the matter described in the charge was in truth an offense within the statute sighted.

Second, whether the division of the offense—adhering to the King's enemies—given at the reading of the trial was an accurate definition or defective, as an instruction to the jury.

Washington, July 17.—August 5 was tentatively fixed upon as the date for the formal notification of the re-nomination of President Wilson at a conference of leaders today. The notification will take place at Shadow Lawn, the President's new summer home in New Jersey.

WIRE NETTING WILL PROTECT THE BEACHES

Suggested Campaign
to Exterminate the
Sharks Rejected as
Impractical.

By Associated Press Dispatch.

Washington, July 17. — Suggestions that a campaign of extermination against sharks along the Atlantic coast be undertaken by the Coast Guard Service were abandoned today by the Treasury Department officials as impractical.

They report that the only method of protecting bathers was the extension of steel wire netting, already in use at some beaches, since the ocean is literally infested with sharks.

Inbound ships report sharks running in schools and ranging in size from nine to fifteen feet in length.

The coast guard officials will continue to lend assistance in combating the man eating fish, but no dynamite will be used as it would destroy all food fish.

VACATION FROCK FOR THE TEN-YEAR-OLDS

Buff gingham, combined with a brown, white and red plaid cut kilt, makes an attractive frock for the sturdy girl. The smocking is confined by a stitched on belt, the Eton collar and cuffs being white pique. This model is so practical that mothers will enjoy it.

MIXED UP CONDITIONS

Order, Counter Orders and Surmise
Confuse Troop
Movement Plans.

By Associated Press Dispatch.

Washington, July 17. — Additional National Guard units will be dispatched to the Mexican border only after they have been organized and thoroughly equipped.

Department commanders were delaying transportation today of all incomplete units, on instructions from the War Department.

It is believed the delay in the movement of the Eighth Regiment, Ohio Guards, after it was partially entrained Saturday, is a result of this action.

UNCOVERED HEIRLOOM.

Silver Watch Was Lost and Lay in Ground Six Years.

Dayton, Wash.—An heirloom watch, lost six years ago by George Jones, came to light recently when County Commissioner Lee Lindley turned a furrow in a field he was plowing and brought the relic to the surface.

Jones lost the watch while at the Lindley farm and had never been able to find it, although he had looked carefully many times.

It was in a silver case, which was badly discolored from long contact with the earth, but after Lindley had shaken the dirt from it and wound it it ran as well as the day it was lost.
